

WE FIT YOUR STYLE WE STAND UP TO YOUR WEATHER

From the mountains to the coasts...

Wherever you call home, a DaVinci roof
lives up to your vision of beauty and stands up
to the challenges of your weather.

DaVinci has been the leader in composite roofing for nearly two decades. Our commitment to creating durable, beautiful roofing tiles is unparalleled. You won't find a more realistic or better-performing roofing product anywhere.

With DaVinci, you can retain all the character your home was intended to have without worrying about time-consuming and costly maintenance. Whether you're replacing an existing roof or looking for the crowning touch on a new construction project... just leave it to DaVinci.

WHAT'S BEHIND THE BEAUTY IS

Every region of North America presents challenges to the exterior of your home. Mother Nature's fury is universal.

With the damaging effects of sun, hail, gale-force winds and freeze and thaw cycles, roofing materials are at odds with the weather

year-round. DaVinci's unique composite construction outperforms both natural slate and cedar shake with

a Class A Fire Rating, Class 4 Impact Rating and a

110 MPH Wind Rating. But the real genius of a DaVinci roof lies in its ability to provide lasting beauty and a constant source of pride.

DaVinci roof tiles are constructed of a composite material made of pure virgin resins, UV and thermal stabilizers as well as a highly-specialized fire retardant. The result is a state-of-the-art tile that gives us the greatest degree of color control and consistency in the manufacturing process and an end product that endures beautifully in any climate.

VS. NATURAL SLATE

Like a rock? Slate tiles are not immune to the ravages of time...or hail. Its tiny fissures make natural slate susceptible to damage caused by freeze and thaw cycles. DaVinci slate products defy the elements for decades of enduring and worry-free beauty.

Expanding the legacy of beauty...

The anticipation is over—DaVinci now offers Hand-Split Siding, which gives you the look you love with superior durability for a lifetime. The tile molds are created from authentic cedar shake, giving any home the beauty of real cedar without ongoing maintenance. Unlike real cedar, Hand-Split Shake Siding does not curl, cup, or split; it is easy to install and never requires painting. The color you pick is the color you keep because the tiles are made of virgin resins fortified with state-of-the-art UV stabilizers. When you demand the beauty of authentic wood but require effortless upkeep, DaVinci is on your side.

DAVINCI SLATE

Historically, attaining the luxurious look of natural slate hasn't been easy. The cost, the weight and the required army of skilled tradesmen made the installation process complicated and costly. Thanks to the genius of DaVinci, the look of slate is more viable than ever.

MULTI-WIDTH

Multi-width tiles provide the greatest degree of authenticity and flexibility.

SINGLE-WIDTH

Single-width tiles reduce material and speed up installation time without compromising style.

BELLAFORTÉ

The look of slate at a fraction of the cost and weight.

Some homes were created with the promise of a slate roof in mind. DaVinci's Single-Width Slate delivers on that promise with its astonishing versatility. Our single-width tile construction streamlines installation but still enables the flexibility of straight or staggered appearances.

The look will amage you. The price might surprise you.
