BEAUTIFUL  
IN A  
WORLD OF EXTREMES

James Hardie® fiber cement products available at

# JAMES HARDIE® – TOUGHER THAN THE ELEMENTS

Installed on 5.5 million homes from coast to coast, James Hardie® products are built to withstand the most extreme elements. It’s easy to see why James Hardie is the most popular brand of siding in America.

## Unique Formulation

Only James Hardie® HZ5® products are specifically engineered for harsh northern climates. During manufacturing, proven and refined raw materials are chemically bonded with proprietary additives to enhance moisture resistance and increase product strength.

## Finishing Technology

Revolutionary ColorPlus® Technology provides the ultimate in aesthetics and performance. Innovative color process applies a consistent, baked-on finish that provides years of lasting beauty and fade resistance.

## Complete Exterior

Diversified products defined by durability, lower maintenance, superior aesthetics and an array of design options. Providing homeowners peace of mind with exceptional warranties through a single manufacturer.

## A REPUTATION BUILT ON TRUST

For over 30 years, James Hardie® fiber cement products have been used to create better places to live. **With each new home, the James Hardie name has come to stand for uncompromising quality.** That long track record has earned the loyalty of homeowners and the endorsements of trusted authorities in the building industry.

BRAND LEADER  
**Builder**  
WINNER 2013

Chosen by builders as a “**Brand Leader**” in **Builder Magazine**

**#1 Return on Investment every year** since 2005 in **Remodeling Magazine\***

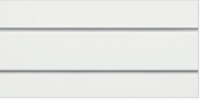

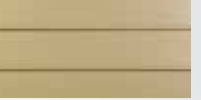

Featured on the **DIY Network's Blog Cabin** in 2012 & 2013

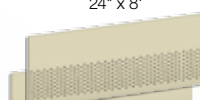

**HardiePlank® lap siding** is backed by the **Good Housekeeping Seal**

\*Remodeling Magazines' Cost vs. Value Report states that re-siding a home with fiber cement siding in the mid-range or larger categories provides the #1 return on investment.
