SAINT-GOBAIN

Welcome to the **2025** CertainTeed Siding Collection

Higher Standards

Higher Standards and Greater Rewards are about the many ways

Greater Rewards

CertainTeed helps you differentiate yourself to grow your business.

This starts with a comprehensive array of exterior products that allow your customers to express their unique personal style. CertainTeed products deliver higher standards in selection, beauty and performance.

In fact, CertainTeed offers the broadest selection of exterior products, styles and colors to achieve a full range of design options. No other company can match CertainTeed's portfolio of products. With all our products we offer freedom of choice for your customers to experiment with style, color and texture... the freedom to be creative, to mix and match and think beyond just four walls. Your customers will appreciate that you are providing them with the products and expertise to achieve their vision – no matter what their vision may be.

For you, higher standards mean focusing our extensive industry experience to help you navigate the challenging construction market. We pledge to support you with educational opportunities, contractor certification, rebate programs and comprehensive marketing tools that empower you with the knowledge and confidence to outpace your competition. Look to CertainTeed as your trusted partner for making a positive and lasting impression on every customer you meet.

Earn greater rewards through more opportunities to grow your business by helping customers discover the finest roofing, siding, and trim that will transform the appearance of their homes.

Moreover, CertainTeed offers the 5-Star Contractor Program, the premier contractor program in the industry. 5-Star contractors are truly treated as partners. CertainTeed offers industry leading training programs, as well as sales, marketing and business-building tools, to provide contractors with the professional credentials necessary to stand out in today's marketplace. Plus, we make it easy for homeowners to find knowledgeable, skilled and trustworthy professionals through our robust "Find a Pro" website tool. No other program is as extensive or more focused on partnering with contractors for success.

At CertainTeed, we understand that our success is tied directly to your success.

Colors shown throughout this brochure are as accurate as printing methods will permit. Please see product samples before making final selection. Materials of differing gloss level, texture, composition and orientation can look different despite being the same color, it is important to get samples of every product being considered and place them where they will be installed.

On Cover:

Siding: Monogram D5" Dutchlap in Natural Clay and STONEfaçade in Pocono Autumn.

Trim: Vinyl Carpentry®.

Why CertainTeed?

Trust

Professionals agree, CertainTeed still leads the Vinyl and Polymer Siding industry
For the 28th year in a row, builders and contractors named CertainTeed Vinyl Siding Number One in the categories: Brand Familiarity; Brands Used in the Past Two Years and Brands Used Most in the Hanley-Wood Brand Use Study.

CertainTeed offers an industry-leading spectrum of colors including unique darker shades and semi-transparent stained colors for virtually unlimited design possibilities.

Utilizing the newest technology and state-of-the-art formulations, CertainTeed backs their vinyl siding with PermaCOLOR Lifetime Fade Protection.

Mix & Match

Benefit from the power to mix & match products, styles and colors

CertainTeed's complete selection of exterior product options are tailor-made to take creative advantage of the exciting mix-and-match approach to exterior home design – combining various products, styles and colors to create truly unique exterior designs.

Using combinations of horizontal and vertical siding plus shakes and shingles together makes a bold statement. Adding soffit and trim delivers just the right accent. The collection allows your customers to rely on a single, trusted source for virtually every exterior product they need – and gives you more opportunities to cross-sell.

Color Leadership

Together, siding, trim and roofing color selection has a profound impact on the overall look of a home's exterior. Siding and trim colors cover the exterior walls for curb appeal, but this also extends to the roofline, on what one architect calls a home's "fifth façade."

CertainTeed's color alignment simplifies the task of combining siding and roofing with other facets of the overall design to create a cohesive look. From warm and inviting to cool and fresh, there are color palettes to satisfy every preference. All our products deliver the craftsmanship, durability and virtually maintenance-free performance your customers expect from CertainTeed.

ColorView® offers users the ability to mix and match colors and styles on a wide variety of pre-populated home styles to get design ideas.

ColorView DIY lets users who are short on time begin designing today – upload a project picture and in just a few minutes you can mix and match colors and styles on your own project.

ColorView Pro gives users the opportunity to have a photo of their home professionally masked in just a few days for them to use in ColorView Online.

COLORVIEW™
EXTERIOR STYLE & COLOR SELECTOR

Start exploring all of CertainTeed's color tools now at **colorview.certainteed.com**

ColorCoach™ is a web-based tool that helps provide some basic education on color theory and helps provide some recommended color combinations for the consumer audience. It also helps contractors and builders recommend CertainTeed roofing, siding, and trim color combinations that look great together.

Colors shown throughout this brochure are as accurate as printing methods will permit. Please see product samples before making final selection. Materials of differing gloss level, texture, composition and orientation can look different despite being the same color, it is important to get samples of every product being considered and place them where they will be installed.

ColorCoach™

What is a Color Palette?

A color palette is the combination of colors used in a specific space. It refers to the more specific color choices, as opposed the the style of color choice (monochromatic, analogues, or complementary), which would be considered a color scheme. Your chosen color palette creates the visual foundation of your home. As we mentioned earlier with the 60-30-10 Rule, a palette is normally comprised of three (or four colors) to create contrast or blend an exteriors' features.

Innovation

TrueTexture™
CertainTeed was the first to produce siding utilizing a direct transfer system from real cedar boards, shingles and shakes to create natural TrueTexture finishes. The look of true wood craftsmanship can be created when combined with CertainTeed's Vinyl Carpentry® and Restoration Millwork®.

Installation Features
Many engineering innovations including SureStop™, EasyMeasure™ PanelThermometer™, HammerTapper™ and StudFinder making CertainTeed Siding the industry leader.

Cedar Impressions patented **PanelThermometer™** and temperature lines are designed to ensure precise installation.

STONEfaçade
Patented technology
Fully-integrated rainscreen, and a fastening flange that is designed to provide ease of installation.

Fully-integrated rainscreen
A 3/8″ steel insert embedded into each panel allows top-to-bottom drainage that protects walls from moisture build-up, and reduces the potential for moisture-related issues.

Beveled perimeter
Improves overall fit and finish for an uninterrupted appearance along the length of the wall.

SureStop™
Recessed nailing area.

EasyMeasure™

HammerTapper™
Enables lateral adjustment for easier siding panel installation.

STUDfinder™
Designed to help ensure a safe, precise installation for maximum siding performance.

Curb Appeal™ That Lasts

CertainTeed offers an industry-leading selection of low-maintenance products that create beautiful, timeless looks that last.

Authentic from the curb or close up

From historic to modern to timeless, each project has its own unique design challenges. CertainTeed's wide variety of styles and textures empower you to select the product that will deliver the architectural accuracy and beauty required to meet every project's needs.

Industry leading color palette

CertainTeed's color palette simplifies the task of combining siding and roofing with other facets of the overall design to create a cohesive look. From warm and inviting to cool and fresh, there are color palettes to satisfy every preference. Backed by PermaColor™ Lifetime Fade Protection, our products deliver the virtually maintenance-free performance your customers expect.

Details create the personality

The personality of a home is reflected in the unique details of the project. CertainTeed offers a complete selection of virtually maintenance-free accent and decorative trim accessories designed to complement any project.

A modern look that provides a unique touch to any exterior

Urban Reserve™ comes in versatile colors and textures that bring style and sophistication to any design. Combine with other materials and finishes to highlight a home's focal point or use it all over for a fresh and striking look. Choose from 8 fade-resistant solid colors.

The timeless look of stone

Nothing says "Welcome home" like the warm and inviting look of stone. Take your home's exterior to a new level with CertainTeed STONEfaçade, a manufactured architectural stone veneer that delivers the beauty and craftsmanship of natural stone in an affordable, durable, and easy-to-install panelized system.

Perform. Protect. Preserve.

RISE Siding and Trim products are designed for demanding jobs. Quality synthetic fibers such as polyester, nylon, and fiberglass are core ingredients that result in affordable, durable, and long-lasting siding and trim options. These fibers come from post-consumer and post-industrial recycle and waste streams making RISE a forward-looking alternative to cement, and wood-based products.

RISE® SIDING & TRIM

NEW PRODUCT

WOODGRAIN

SMOOTH

All products available in both woodgrain and true smooth finishes.

Composite Siding

Look/Feel of Wood: You can cut, install and handle RISE siding and trim like traditional wood because RISE mimics natural wood's simplicity and flexibility, but without the associated cost and maintenance. No special tools needed.

Page 36

Ground Contact & Moisture Resistance: RISE products withstand heavy rain and snow while defying freeze/thaw damage and resisting rot. RISE siding and trim products are also the only hard siding products on the market that allow for incidental ground contact.

Easy to Handle: With less breakage and no special tools required, you can save time and reduce jobsite waste. RISE is also the only exterior siding product available in 13' 4" (160") lengths, making it the perfect length for 16" on center stud spacing.

94% Recycle Content: RISE products are created with 94% recycled materials. By reclaiming the high performance synthetic fibers and polymers, we were able to engineer a durable siding solution that reduces the need to landfill these materials.

30-Year Warranty: RISE products are backed by a 30-year substrate limited warranty.

RISE siding and trim is available in primed or pre-painted finishes. Product sizes and pre-finish color availability varies by region.

Urban Reserve™
### Aluminum Siding

NEW PRODUCT

Transform any exterior with a contemporary accent or shield an entire home with lasting beauty. Urban Reserve offers unlimited possibilities installed vertically or horizontally. With premium strength and performance, enjoy reliable, low-maintenance metal siding and soffit in any climate.

Icon Guide

Below you will find an explanation of each icon used for easy reference to identify and compare the many product features, benefits and specifications of the siding products offered by CertainTeed.

Aesthetics

Colors:
Shows the number of different colors available within each product line. The CertainTeed Siding Collection features solid colors that replicate the look of freshly painted cedar and variegated blends which provide the appearance of semi-transparent stained finish.

Extended Lengths:
Indicates products that are available in extended lengths, including 16′, 20′ and 25′. Longer length siding significantly reduces the number of seams when panels overlap horizontally, increasing the overall aesthetics of the wall.

Panel Projection:
Identifies the full depth of a siding panel as measured from the back of the panel to the tip of the front of the panel. Deeper panel projections add rigidity to siding products while providing wider shadow lines that enhance aesthetics. This measurement is also used for proper sizing of accessories necessary to install the siding.

Profiles:
Lists the number of different profiles available within each product line. A profile is the contour or outline of a panel as viewed from the side or end. Product profiles, such as clapboard and dutchlap, are designed to mimic the different architectural styles of wood or stone cladding products.

Texture:
Indicates available textures within each product line. Whether you are seeking the smooth appearance of milled cedar, or one of the many TrueTexture™ woodgrains molded from real cedar boards, CertainTeed offers a wide array of architecturally authentic product textures to choose from.

Installation

Fastener Indicator:
CertainTeed is the only siding engineered to include an integral fastener placement guide on each panel. The Patented STUDfinder™ Installation System and Cedar Impressions® fastener indicators are designed to help ensure a safe, precise installation for maximum siding performance.

Lock:
Designates the panel lock design of the product. CertainTeed Siding Products feature proprietary locking designs created to optimize the alignment and installation for each specific product. The special features of CertiLock™ and DuraLock® ensure that every siding panel goes on the wall straight and secure.

Performance

Drainability / Moisture Resistance:
Product technology eliminates the common problem of moisture accumulation in wall cavities through the use of innovative materials, rainscreens, weep holes or open designs.

Fade Protection:
CertainTeed offers an industry-leading spectrum of colors including unique, darker shades and semi-transparent stained blends for virtually unlimited design possibilities. Utilizing a unique pigment chemistry, CertainTeed guarantees Lifetime Fade Protection on our vinyl siding.

Fastening Hem Design:
Identifies the type of fastening hem design on a cladding product. Rollovers and / or reinforcing ribs are used to stiffen the nail hem of a siding panel, giving it a straighter appearance on the wall while contributing to the wind load resistance of the product.

Flame Spread Rating:
Indicates products that are Class A Flame Spread Classified, meaning that the material is highly resistant to fire and does not spread flames quickly and/or is self-extinguishing.

Low Maintenance:
Unlike other cladding products that require regular repainting, recaulking, tuck-pointing, and sealing to maintain their aesthetics, CertainTeed cladding products can be kept beautiful using a soft bristle brush and a bucket of soapy water.
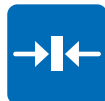

Panel Thickness:
Defines the average thickness or gauge of a siding panel which is an important element of siding quality. Thicker panels look straighter on the wall, are more durable, and hold up against impacts and high winds. CertainTeed siding products are regularly audited by Architectural Testing, Inc. to ensure they meet or exceed ASTM standards for vinyl siding.

Warranty:
CertainTeed shakes, shingles, insulated, horizontal, soffit and vertical products are covered by a Lifetime Limited Warranty.

Wind Load:
This is the rating for the maximum wind pressure that a siding product can withstand. All CertainTeed Siding products* are rigorously tested by Intertek Group plc. to meet or exceed ASTM standards for resistance to negative wind load pressures.

*Products adhere to ASTM D3679, D7793, D7254 standards for capable wind speed ratings based on standard wind load design pressure ratings. For most current ratings, please reference www.certainteed.com.

Colors shown throughout this brochure are as accurate as printing methods will permit. Please see product samples before making final selection. Materials of differing gloss level, texture, composition and orientation can look different despite being the same color, it is important to get samples of every product being considered and place them where they will be installed.

# Over **30** YEARS
of Impressive Innovations

Generation 2

Introduced multiple new features, including:
- TrueTexture™ realistic wood grain look from real wood cedar shingles
- PanelThermometer™ to indicate the correct panel temperature for precise installation
- Texture added to the butt section of panel
- Hangers and locks were increased to allow for better expansion and contraction
- Improved function of the side tabs for locking
- More styles: Half-Rounds, Triple 5″, Rough-Split Shakes in Double 7″ and 9″
- Multiple darker colors
- Accessories – outside corners, inside corners, bay corners

TrueTexture™

1992 – 2003

2004 – 2015

45°
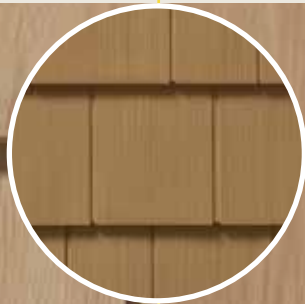

Mitered corners

The patented PanelThermometer™

Generation 1

- National launch in 1992
- Double 7″ Perfection Shingle, available in 4 colors
- Initially produced as a vacuum-formed product
- First injection molded, vertical woodgrain product for precise duplication of real wood texture

# Cedar Impressions®

Polymer Shake & Shingle Siding

Scallop

Half-Cove

Octagon

Offset corner

HammerTapper™

Continuous nail hem with tape measure

2016 – current

Generation 3

- Introduced Triple 5″ Sawmill Shingles
- Also introduced Individual 5″ Sawmill Shingles and Single 7″ Perfection Shingles featuring Ageless Cedar™ color technology color blended throughout the shingle
- Created offset corner accessories for a more natural installation
- Launch a refined Double 7″ panel
- Development of new accent shapes: Scallop, Half-Cove and Octagon
- Introduced solid colors into the Single 7″ panel

Added the following Engineering Enhancements:

- HammerTapper™ – allows easier positioning of the panel – tap to left and tap to right
- More natural-looking tapered shingle gaps
- Continuous nail hem (installation friendly – makes it impossible to miss a tab)
- Nail stop – indentation in nail hem area to prevent driving nails too tight
- Tape measure on continuous nail hem to help make proper cuts easier

Product availability varies by region.

The patented fully-integrated rainscreen provides STONEfaçade additional structural support and superior drainage and will prevent moisture from accumulating in the wall cavity. The rainscreen insert also incorporates a fastening flange that allows STONEfaçade to be screwed to the substrate.

Oversized wrap around edge feature creates a more realistic and thicker finish compared to other stone veneer products that can have a thin appearance.

Integrated Fastening Flange

No Mortar

Beveled Perimeter

3/8" Rainscreen

Continuous Support

Easy-to-install stone veneer panels.

Soffit & Vertical Siding
Vinyl and Aluminum

Ridge Vents (exhaust)

Soffit Vents (intake)
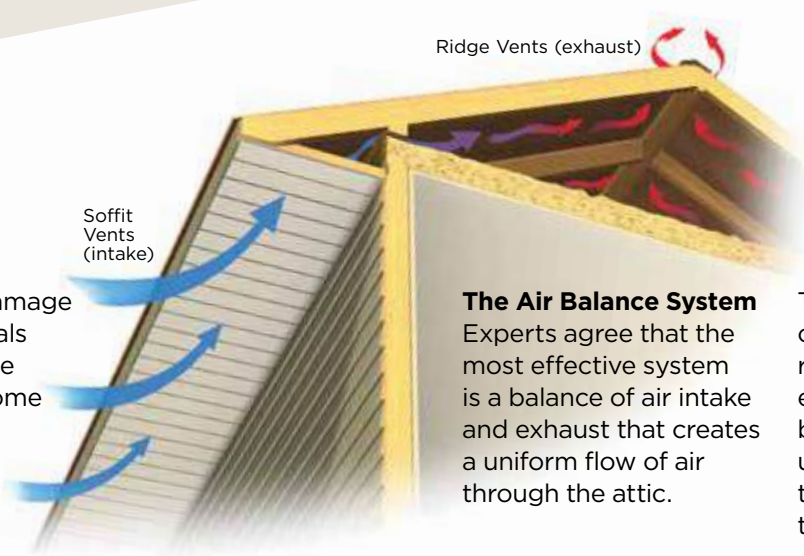

Proper Ventilation is Critical

Protection against damage to the roofing materials and structure increase comfort inside the home and energy savings.

The Air Balance System Experts agree that the most effective system is a balance of air intake and exhaust that creates a uniform flow of air through the attic.

This system creates a condition in which the roof temperature is equalized from top to bottom, supplying a uniform air flow along the entire underside of the roof deck.

Triple 3-1/3" InvisiVent
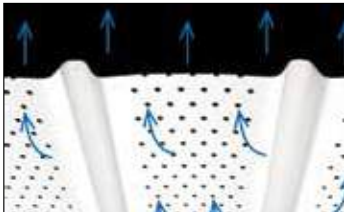

Standard vented soffit

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.

Triple 3-1/3" InvisiVent offers at least 50% more ventilation than most standard vinyl soffit, providing more than 10″ of net-free intake area. This means that not only will InvisiVent provide a balanced ventilation system, but will do so with an overhang as short as 10″.

Triple 3-1/3″ InvisiVent in Colonial White.

# Invisivent®
Triple 3-1/3"
Vinyl Soffit & Vertical Siding

- InvisiVent® hidden vent and solid styles.
- The only vinyl soffit to provide more than 10 inches of net-free intake area per square foot.
- Concealed intake vents provide a smooth appearance.
- Matte finish looks like freshly painted wood.
- Deep 3/4" panel projection creates sharp definition.
- 8 low-gloss colors.
- Heavy-duty .044" thickness for rigidity.
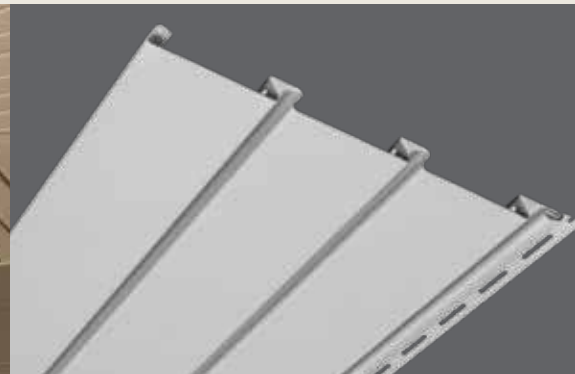

Perimeter™
Triple 3-1/3"
Vinyl Soffit & Vertical Siding

- Hidden Vent and Solid Styles.
- 10 low-gloss colors.
- .040" thickness.
- Hidden vent style provides up to 9.65 inches of net-free intake area per square foot.
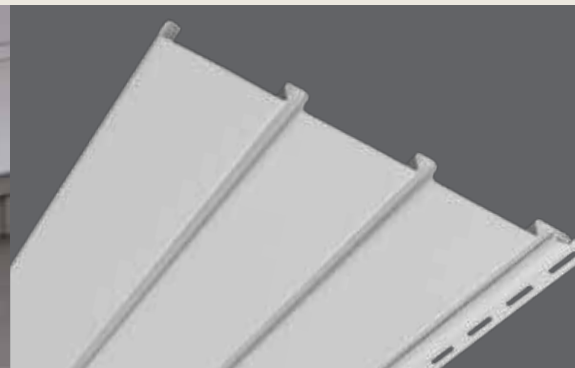

Beaded
Triple 2"
Vinyl Soffit & Vertical Siding

- Wainscot style in solid and invisibly vented.
- Designed for vertical siding, porch ceiling and soffit applications.
- Smooth finish of professionally applied paint.
- Extra-long slip-lock design helps provide secure installation.
- 8 low-gloss colors.
- .039" thickness.
- 1.6 inches of net-free air per square feet – invisibly vented.
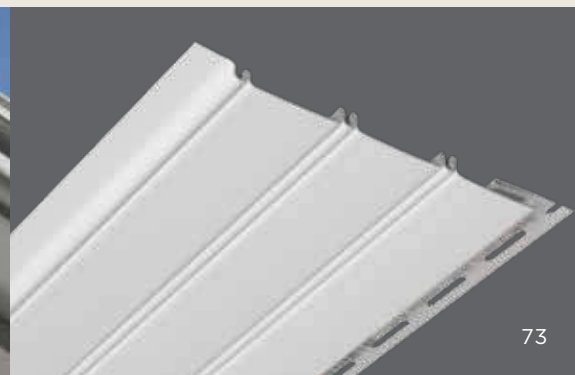

Ironmax™ Double 5"

Vinyl Soffit & Vertical Siding

- Solid and fully vented styles.
- Extra-thick .046" construction for optimum strength and flat face appearance.
- Designed for vertical siding, porch ceiling and soffit applications.
- Unique post-formed lock design helps ensure secure installation.
- 9 low-gloss woodgrain colors (Sable Brown for soffit applications only).
- 6.4 inches of net-free air per sq. ft.- fully vented.

Universal Triple 4"

Vinyl Soffit & Vertical Siding

- Solid, fully vented and center vented styles. (Dimensions shown are nominal).
- Designed for vertical siding, porch ceiling and soffit applications.
- Matte finish.
- Post-formed lock design helps provide secure installation.
- 24 low-gloss colors (center vented: Colonial White and Snow only).
- .040" thickness.
- 5.9" of net-free air per sq.ft. - fully vented.
- 2 inches of net-free air per sq. ft. - center vented.
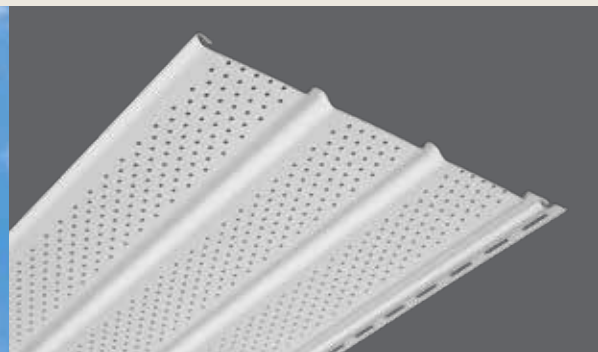

Universal Double 5"

Vinyl Soffit

- Solid and fully vented styles (soffit use only).
- Designed for soffit applications.
- Woodgrain finish.
- 8 low-gloss colors.
- .040" thickness.
- RigidForm technology provides strengthened nail hem for rigidity to perform under high wind conditions.
- 6.4 inches of net-free air per sq.ft. - fully vented.

Restoration Millwork®
Exterior Trim

The Ultimate Finish!

- Superior quality and excellent dimensional accuracy.
- Low-maintenance and long-lasting UV-resistant material.
- Natural white and ready to install.
- Can be painted* to complement exterior colors.
- Cuts and mills with traditional woodworking tools.
- Class A (Class 1) Flame Spread Classification.
- Meets ICC and CCMC code requirements.
- Made in U.S.A.
- Contains recycled content.
- 25-year limited warranty.

*See Installation Guidelines 17-03-1600-US-EN for painting instructions.

InvisiPro+ Casing

InvisiPro+ provides an attractive, easy-to-install alternative to traditional face nailing. Trimboards feature a hidden nail hem integrated into the J-pocket to conceal fasteners. The end result is a nail-free face with no holes left to fill.

One-Piece Corner

One-piece corner components add style and beauty. Corners are available in natural white, and like all Restoration Millwork components, can be painted to match or coordinate with other exterior elements.

Skirtboard with DualStart® Design

Engineered with DualStart Design (patent-pending) cuts installation time while providing the 6 in. ground clearance required by U.S. building codes for fiber cement siding.

J-Pockets and Cut-Outs

Restoration Millwork trimboards with built-in J-pocket eases installation of corner trim and the cut-out allows the trimboard to lie flush with the siding around windows and doors with built-in nail flanges.

Sheets

Available in a full selection of custom and standard sizes and shapes, sheets can be used to create distinctive, one-of-a-kind exterior elements that are as beautiful as they are durable.

- Outstanding UV performance.

- Excellent surfactant resistance.

- Double-strength tear resistance.

- Easy handling and installation with STUDfinder™.

- Class 1(A) fire rating.

- Lifetime limited warranty.

- Available co-branded with your logo!

Moisture Technology, inside and out

Beauty is more than skin deep. That's especially true when it comes to building or improving a home. Moisture protection, energy efficiency and long-term performance are just as important as aesthetics. The CertainTeed Weather Deterrence Wall System delivers those advantages. As a key component in the system, CertaWrap Weather Resistant Barrier provides protection from the elements, and helps assure long-term satisfaction.

CertaWrap Premium Weather Resistant Barrier

Optimal Water Vapor Permeance

Outstanding UV Performance

Excellent Air Holdout (Premium)

Superior Water Holdout

CertaWrap Premium Weather Resistant Barrier Performance

Superior Breathability, Water Resistance and Vapor Transmission

Mold, mildew and water damage are a home's worst enemies. An effective weather barrier system defends against these problems by resisting moisture penetration and air infiltration while allowing water vapor to dissipate. CertainTeed CertaWrap offers the industry's best combination of all of these properties, helping you defend against moisture and the elements during construction, and preventing moisture buildup – from inside and outside the home – after cladding is applied.

CertaWrap is available in the following roll dimensions:	Premium	Standard
	3' x 100'	9' x 100'
	3' x 165'	
	4.5' x 200'	
	5' x 200'	
	9' x 100'	
	9' x 150'	

CertaWrap Standard Housewrap

CertaWrap Standard Housewrap is a coated poly woven fabric for use in housewrap applications that controls airflow through the wall and protects against outside water from penetrating the exterior of a home. It is engineered to resist water while allowing water vapor to pass through and is stabilized to resist degradation.

CertainTeed products are designed to work together and complement each other in color and style to give any home a beautiful finished look.
