WHAT YOU'LL LEARN

WHAT IS PRESSURE
TREATED WOOD?

WHY USE PRESSURE
TREATED WOOD?

ADVANTAGES &
DISADVANTAGES

FREQUENTLY ASKED
QUESTIONS

BEST BUILDING
PRACTICES

CARE &
MAINTENANCE

Culpeper Treated Lumber brings the learning to you—along with lunch. Our Lunch & Learn is built for contractors, dealers, and sales teams who need to build with confidence and advise customers the right way. We cover pressure-treated wood the way it shows up on the job and at the counter—when to use it, how to build with it, and how to avoid costly mistakes—so you can deliver results that last and recommendations customers trust.
